Products of LILAC LLC

Birch juice looks like a clear liquid, but in terms of chemical composition, it is superior to many other vitamin drinks.

100 grams of birch sap contains:

Carbohydrates - 1-3 g	Manganese— 0.1 mg
Potassium — 27.3 mg	Iron— 25 µg
Sodium - 1.6 mg	Silicon— 10 µg
Calcium — 1.3 mg	Titanium— 8 µg
Magnesium — 0.6 mg	Copper— 2 µg
Aluminum — 0.1-0.2 mg	NoKel - 1 µg

The composition includes vitamins, organic acids, phytoncides wi antimicrobial properties.

Sodium (normalizes the secretion of hydrochloric acid, useful for reduced stomach acidity)
Copper (participates in education and blood renewal).
Advantages: Eliminates edema, strengthens immunity; improves general well-being and mood.

Products of LILAC LLC

Diet juices have already won the love of many of you, because they are not only useful, but also very tasty!

Birch juice is rich in useful substances, normalizes the work of the stomach and improves digestion. And the absence of sugar in the composition of juices also ensures a low-calorie content.

The properties of each of the organic components are combined in one drink:

- lime is a powerful source of vitamin C and the best natural antioxidant.

- ginger - calms the nervous system, strengthens immunity and has tonic properties.

Products of LILAC LLC

Birch sap is also widely used for cosmetic purposes.

Birch is an effective remedy for acne. The botulin contained in it soothes and reduces irritation, regulates the secretion of sebum.

Washing your face with birch sap helps to regulate the formation of melanin, brightens the epidermis. Acids present in birch bark act as a light peeling, cleanse the skin and stimulate regeneration.

Thanks to washing with birch sap, pigment spots and acne on the skin are reduced.

Products of LILAC LLC

Various fruits and infusions are added to birch sap:

- lemon
- mint infusions
- rosehip infusions
- birch-apple
- birch-cherry.

Rose hips are rich in calcium, iron and phosphorus, and their fruits contain 40 times more vitamin C than lemons.

Rosehip has an anti-sclerotic and anti-inflammatory effect, activates redox processes in the body and normalizes carbohydrate metabolism.
