The company's main focus is on the creation of prefabricated containers according to the customer's request. We collect products all over Russia and consolidate them in our warehouse, where we prepare the products for export.
We always offer to optimize the container area to ensure proper profitability.
You don't need to search for a manufacturer and deal with all the necessary issues on your own - we take care of it.

Our service

we:

- purchase products according to a pre-agreed request/specification.
- are looking for the product you need
- consolidate all products in our warehouse.
- label the products during production or in our warehouse
- palletize the products in the required order, in accordance with the regulations (you know which product is on which pallet)
- load the container and provide a photo report
- prepare phytosanitary and veterinary documents
- handle customs clearance

Accompany you from the moment you place an order for food products until the container leaves Russia.

Invite you to submit a preliminary request for the supply of food products from Russia using the contact information below
